GCSE and Vocational results 2020-21

Due to COVID-19 results this year were calculated using the Centre Designated Grades (CDG). The big difference between last year and this year is that grades awarded in 2019-20 were predictions and for 2020-21 grades awarded were evidence based (not what we think they could have got). Systems this year were a lot more robust in terms of gathering evidence, using external 'tests' and mark schemes and the process for quality assurance.
