

- If you can print this off then great but you **don't need to**, you could sketch your own net on **paper** or **cardboard** like a cereal box.
- Decorate the box with a design that you would like to see on a box that you would use to give somebody a gift.
- If you can, cut out your design and fold it along the dotted lines and glue or stick the flaps together to produce the box.
- Try sending me a photo of you work (Christian.Glover@thepeakacademy.org), even if you haven't been able to cut it out, just the design would be cool to see.

Decorate a Box

Draw and colour inside the net of the box below.
